

love you with the lights on

[morgxn](#)

Who do you run to
When you're caught in the middle?
This could be simple
But baby, you love a riddle
Bring me in
I'll never let you down
Cause when you're lying there
My body makes a sound
I wanna love you with the lights on
I wanna love you after dawn
I wanna tell you that my body bends to hide it
But my heart it can't deny
I wanna love you with the lights on
I wanna love you, love you, love you
Can't try to forget you
Cause you're all I think of
It's not an illusion
We just get distracted
The sun is burnin
Wants to see us dance
I'm running out of patience
Can we take this chance?
I wanna love you with the lights on
I wanna love you after dawn
I wanna tell you that my body bends to hide it
But my heart it can't deny
I wanna love you with the lights on
I wanna love you, love you, love you
Love you, love you
I wanna love you with the lights on
I wanna love you after dawn
I wanna tell you that my body bends to hide it
But my heart it can't deny
I wanna love you with the lights on
I wanna love you
