

Cyanide

Daniel Caesar

I love dominantly
You make me weak, make me thirsty for release
Gwan come compliment me Dem become an enemy
Cop a flight to Paris, lowkey
'Cause lil' baby girl I'm tryna breathe
Please baby try to understand me
I am not a monster, I'm just a man with needs I take flights, when I learn it's time to go
Tryna take time by crossing timing zones
Come press your lips 'pon me
LSD got me feelin' empathy
Warfare out to mind chemically
'Cause we suffer endlessly
Could be Kamikaze, only time will tell
Even though I'm godly, might end up in Hell
Sweet melody, wind up your body 'pon mi
Your lovin' baby girl, you know mi need it, need it
Let me fight for it, me achieve it, 'chieve it
Sweet melody, wind up your body 'pon mi
Your lovin' baby girl, you know mi need it, need it
Let me fight for it, me achieve it, 'chieve it Feel my love drip over your skin
Rich dark chocolate, sweet melanin
Forevermore you gon' be my kin
Whatever jaw has binded, let no man enter in Give me your love, it's unrequited
The thought of you gets me excited
I guess I'll come to your crib, uninvited
Offer you all your favorite vices, girl I know you like it
Girl you can't do like, like me
You light up my life, you like, like me
Then it be good that's unlikely, likely
But drive you comin' down, yeah
Turn my life around, yeah Sweet melody, wind up your body 'pon mi
Your lovin' baby girl, you know mi need it, need it
Let me fight for it, me achieve it, 'chieve it
Sweet melody, wind up your body 'pon mi
Your lovin' baby girl, you know mi need it, need it
Let me fight for it, me achieve it, 'chieve it Feel my love drip over your skin
Rich dark chocolate, sweet melanin
Forevermore you gon' be my kin
Whatever jaw has binded, let no man enter in
