

# IDORU (Algorithm Mix)

## Grimes

You were the only one  
Pale, we're so numb, ooh  
And even though I'm breaking at least I feel something (Just like release) Oh, they say  
As my fingers tremble  
This is what I am  
And when, when you  
Fingers tremblin' too  
Understand  
Yeah, we could play a beautiful game  
We could play a beautiful game  
You could chase me down the way  
Ah-la, la  
I wanna play a beautiful game  
Even though we're gonna lose  
But I adore you  
Adore you You were the only one  
Pale, we're so dumb, ooh, ooh  
And even though I'm breaking at least  
I feel something (How can you be so mean?) True, as they say  
As my fingers tremble  
This is who I am  
And then, then you  
Fingers tremblin' too  
Understand  
Yeah, we could play a beautiful game  
We could play a beautiful game  
You could chase me down the way  
Ah-la, la  
I wanna play a beautiful game  
Even though we're gonna lose  
But I adore you  
Adore you Unrequited love has reassembled me  
I think it's crazy  
And if you said I do, I'll reassemble you, baby  
And you're so cool 'cause you don't think you're cool  
You cannot be sad  
Because you made my all time favorite music We could play a beautiful game  
We could play a beautiful game  
You could chase me down the way  
Ah-la, la  
I wanna play a beautiful game  
Even though we're gonna lose

But I adore you  
I adore you  
'Cause I know you We could play a beautiful game  
We could play a beautiful game  
You could chase me down the way  
Ah-la, la  
But there you are, hidden away  
Can't quit fighting with you  
But I adore you I adore you  
I adore you, oh  
I adore you  
I adore you  
I adore you You, you  
You, you  
You, you  
You, you, you
