## Edge of a Dream (feat. Apocalyptica)

## **Firewind**

Didnt mean to cause you trouble. Didnt mean to cause you pain. I never though this could turn out this way, Maybe i am a big mistake. Didnt mean to say these words. Didnt mean to hurt your pride. We are looking far some inspiration, I never found it in your heart. Walking on the edge of a dream. Cant you see that i am real? Pretend that it's for ever! Walking to the edge of the world, We belong in our dream, For a while you feel the silence. Only looking for forgiveness And when the ship is sinking fast I only looking for a sign that tells me Where i can walk through this endless field. Walking on the edge of a dream. Cant you see that i am real? Pretend that it's for ever. Walking to the edge of the world, We belong in our dream, For a while you feel the silence. Waiting for the weight of the world In a place so cold! If tomorow never comes Hold my hand one last time, one last call
