

Just Us (feat. Yuppycult)

Said The Sky

Been so long
Since I had someone to hold
I forgot What I needed the most
You came along brought me X's and O's Tell me right now, right now
Why do I feel this way
Tell me right now, right now
Don't know the words to say
Tell me right now, right now
Cause I don't wanna wait
Tell me now do you feel the same I don't know what it feels like to fall in love
But something feels right when it's just us
I don't know how I missed it, so obvious
But something feels right when it's just us
(When it's just us)
(When it's just us)
(When it's just us)
(When it's just us) Boy I'm sold
Got me hooked on a dream
When I'm cold
You're the fire I breathe
And I know
You're all that I'll ever need Tell me right now, right now
Why do I feel this way
Tell me right now, right now
Don't know the words to say
Tell me right now, right now
Cause I don't want to wait
Tell me now do you feel the same
I don't know what it feels like to fall in love
But something feels right when it's just us
I don't know how I missed it, so obvious
But something feels right when it's just us (When it's just us)
(When it's just us)
(When it's just us)
(When it's just us) I don't know how I missed it, so obvious
But something feels right when it's just us
