

Go Die

Tickle Me Pink

Everything I thought was true, turned into a lie
After all the time we spent, what is there to pry
This is my dawning day the old will change,
with haste

Will you let our future fade away?
Lay beside the moonlit ocean, gazing into the sky
Then i cried up through the blackness, waiting for our reply
Its been so long since I saw you, but its been the time of my life
Now that its all over, I want you to go die
die

Reflecting on our memories, I never felt at peace
Why would I be with you, when you are never pleased
This is my dawning day the old will
change, with haste

Will you let our future fade away?
Lay beside the moonlit ocean, gazing into the sky
Then i cried up through the blackness, waiting for our reply
Its been so long since I saw you, but its been the time of my life
Now that its all over, I want you to go die
die

Go die, die
Can you feel me scream out loud, you left me out to dry
Can you feel me scream out
loud, you left me out to dry
Whisper in the ear of yours
dont try to save the night
Its been so long since I sensed you
And its been the time of my life
Now that its all over, I want you to go die
Or stay out of my life
