

# Take Me Over

Red

"Take Me Over" Traces of your voice, I know it, I know it so well.  
Waking in the storm, I can feel you, I can feel you with me.  
Can I go again, oh, your reckless, your reckless, life goes.  
I cannot defend, this untamed heart, is waiting. I am, standing on the edge, take me over, take  
me over.  
See how, fast this life can change, take me further, lead me further.  
(Ah, ah, ah, ah) take me over, take me over. Find my life ahead, oh, I don't know, I don't know  
where.  
But, I'm starting on my way, will you meet me, will you meet me there?  
Echoes in the night, like a melody is, haunting me.  
But, then I meet, your eyes, with the fire of a, rising sun.  
I am, standing on the edge, take me over, take me over.  
See how, fast this life can change, take me further, lead me further.  
(Do you believe, a life can change) take me over, take me over.  
(Do you believe, a life can change) take me over, take me over.  
Do you believe, a life can change, take me over, take me over.  
Do you believe, a life can change (do you believe)? I am, standing on the edge, take me over,  
take me over.  
See how, fast this life can change, take me further, lead me further.  
(Ah, ah, ah, ah) take me over, take me over.
