

Too Tough

Bully

Call me but you can't come clean
I had to hear it from my family, hear it from the answering machine
Could you lie anymore?
I am only half sorry for bringing you down before
It's like you never even wanted it
You're just too tough to talk it out and talk about it
Only God knows just how far you will go
To be someplace we'll never know
You're tryna wear me down
Wear me down
Callin' me so you can come clean
After it's too late, why don't you just let me be?
Stop tryin' to blame
Everyone else, so get up now, soak in the stream
I remember you so much
I'm glad we straightened it out
And now you're right on track
That's the shit that brings me down
It's like you never even wanted it
You're just too tough to talk it out and talk about it
Only God knows just how far you will go
To be someplace we'll never know
You're tryna wear me down
Wear me down
This is, it's been so unfair
You do, do whatever you care
I say to you're sensitivity
It's wasted, wasted
