

One Day Less (New Recording)

[John Michael Montgomery](#)

Happy anniversary baby
the years are rushing by us
your more beautiful today
Then we walked down the aisle
And I know im not good at this
What I'm trying to say is
Having you stand beside me
has made my life worth while
One true friend is what you've always been to me
One true friend is what I always wanted to be
To have someone love you
Thats true happiness
May you live to be a 100
May I live one day less
There were times when we scraped by
A year or two and it was rough
I love you more for what we went through
And never stopped beliving in us
And I know I'm one of the lucky ones
I couldnt ask for anything more
Cause you can have all the money you'll ever need
and spend your life looking for
One true friend is what you've always been to me
One true friend is what I always wanted to be
To have someone love you
Thats true happiness
May you live to be a 100
May I live one day less
I couldn't live without you
If I had to be alone
I'll be waiting on the other side
When you find your way home
To One true friend is what you've always been to me
One true friend is what I always wanted to be
To have someone love you
Thats true happiness
May you live to be a 100
May I live one day less
