

# Oh My My

## nomad

See you walking around with your, back turned to me  
I've tried everything I can but,  
words can't break free Oh my my you get in my head  
You're in my head, you're in my head  
Oh my my you get in my head  
You're in my head, you're in my head All the time I spent with you,  
You have no clue,  
I was right behind you Oh my my you get in my head  
You're in my head, you're in my head I dreamt a hundred times she  
Ran off with me  
We stow into some old boat and  
We float, endlessly  
Oh my my you get in my head  
You're in my head, you're in my head  
Oh my my you get in my head  
You're in my head, you're in my head All the time I spent with you,  
You have no clue,  
I was right behind you Oh my my you get in my head  
You're in my head, you're in my head Oh my my, oh my my x4 Oh my my you get in my head  
You're in my head, you're in my head  
Oh my my you get in my head  
You're in my head, you're in my head All the time I spent with you,  
You have no clue,  
I was right behind you  
Oh my my you get in my head  
You're in my head, you're in my head Oh my my, oh my my  
Oh my my, oh my my Oh my my, oh my my  
Oh my my, oh my my
