Minutes till tonight...
Minutes till tonight...So put your arms
Spread them wide
Nothing's gonna hold me back this time
I've been waiting for you all my life
Counting down the minutes till tonight.Open up you heart, let me in
Let the love finally begin
Cause I've been for you all my life
Counting down the minutes till tonight.Minutes till tonight...
Spread them wide
Nothing's gonna hold me back this time
I've been waiting for you all my life
Counting down the minutes till tonight.Open up you heart, let me in
Let the love finally begin
Cause I've been for you all my life
Counting down the minutes till tonight.Minutes till tonight...Open up you heart, let me in
Let the love finally begin
Cause I've been for you all my life
Counting down the minutes till tonight...So put your arms
Spread them wide
Nothing's gonna hold me back this time
I've been waiting for you all my life
Counting down the minutes till tonight.
Open up you heart, let me in
Let the love finally begin
Cause I've been for you all my life
Counting down the minutes till tonight.(end)
