

# Fata Morgana

## Fates Warning

Morrigan you come again  
Morgan La Fay, raven on my sill of frost  
Far away from the sea of the setting sun  
Isle of fire and albatross  
Taught so well, Magic Merlin the wizard  
Maiden of beauty dressed in rainbow  
Come to me  
Come to me  
Come to me  
Damon girl the daughter of Saul  
Queen of the Underworld... She'll have us all  
Damian who's seductress of lust  
The peasants and Kings  
Your heart she will turn into dust  
Damian she's the mortal of man  
Lives in my dreams in darkness  
Reaches out her hand  
Come to me  
Come to me Fata Morgana. . . She will take you  
You're a hungry scarred harlot  
Hunting another heart  
Morrigan fallen angel  
Kneeled upon the widows altar  
Temptress of my dreams...  
She's the widow of my dreams  
Far beyond the realm of dream, your wildest dream  
Ascend to the plane, an imaginary game we play  
Past the golden pillars of the lore to Lemuria Morrigan upon her throne  
She's a mirrored mirage of my desire  
Passion slave, her life I gave, jump into her fire Fata Morgana... She will take you  
You're a hungry scarred harlot  
Hunting another heart  
Morrigan, fallen angel  
Kneeled upon the widows altar  
Temptress of my dreams. . .  
She's the widow in my dreams  
Luring me to ecstasy  
Damian my fantasy
