

# Wait For Love

## Strand of Oaks

All the warning lights ahead  
You hold them up for me  
And all the little things I said  
Goes away I wait for love here... And you'll find meaning in your life  
And complicate it even more  
I tried, I tried, I tried  
But I wait so long I wait for love here... Yeah that's you rotting in your room  
I wasn't in love I was here  
I was an abomination  
And there was a call, there was a high, there was a heaven dawned in roses  
I'm giving up getting over you  
I'm giving up getting over you  
I wait for love here...
