

In My Head

Loreen

Softly whisper your breath, touch me
Your hands reap me, slowly giving in
Time is steady still I'm losing track and dizzy, so confusing
I feel you all around, you're everywhere, can't tell if you're for real Do you feel what I feel?

Do you see what I see?
Something moving inside
Like I'm burning alive You're in my head
Can't get you off my mind
You're in my head
Can't get you off my mind
You're in my head
Can't get you off my mind
You're in my head
You're in my head

Heavy breathing, your eyes on me
And your lips rinding all over my skin
Time is steady still I'm losing track and dizzy, so amazing
I feel you all around me everywhere, you got me falling Do you feel what I feel?

Do you see what I see?
Something moving inside
Like I'm burning alive You're in my head
Can't get you off my mind
You're in my head
Can't get you off my mind
You're in my head
Can't get you off my mind
You're in my head
You're in my head
You're in my head
Can't get you off my mind
You're in my head
Can't get you off my mind
You're in my head
Can't get you off my mind
You're in my head

You're in my head Can't get you off my mind You're in my head
Can't get you off my mind
You're in my head
Can't get you off my mind
You're in my head
Can't get you off my mind
You're in my head

You're in my head You're in my head
You're in my head
You're in my head
You're in my head
