

# Dragonfly

## Azure Ray

Immovable tower come crashing down  
An uncertain hour in this little town  
Will you step to the edge  
Move on in the dark  
Let a new man have your old heart  
You could spend your whole life putting blocks back in place  
With each trebling hand covering up the face  
That seeks high places  
Greedy dragonfly  
So show a new man your old smile  
Indomitable portrait that hangs in your mind  
Waiting to be unveiled in your darkest time  
So step to the edge  
Move on in the dark  
Let a new man have your old heart  
Let a new man have your old heart
