

# Vendetta

## Prozak

I don't know why you wanna push me  
When I'm so close to the edge  
You see and we can just prevent  
This beef before i lose my mind  
Walking a tight rope between sanity and psycho  
Veins filled with nytro igniting like pyro  
Needs a room to breathe before I'm reacting like Michael  
Myers with violent desires to sever your spinal  
Yes the urge is primal in vital to feed my rivals  
By any means of survival leaving em dead on arrival  
The beast unleashed, released proceeds to strike you  
Defeat to lead to decease the repeat cycle  
Claustrophobic now, everything is closing in  
Is this reality or prison from within?  
Very hard to focus as my mind slowly spins  
Oh no, here it come, not this again  
(I hate!) Everything about you hate!  
Anything about (you hate!)  
Everyone around (you hate!) fuck you!  
And all that you're standing for Maybe I should try to take a deep breath  
I can't see the reason with my own self  
Focus is only showing my true hell  
I'm blackin' out thinking about all of this  
Jeckyll & Hyde shit, friend on other pilot  
My mentality riot, unsustainable climate  
Melt down, time split, personality conflict  
See it in my iris, dilated I'm just  
Thinking of killing you, drilling you, filling you with venom  
Struggling cause the thought of murder is so compelling  
Deep inside of me is a demented monster dwelling  
Like Bruce Banner can't get a handle, dismantle everything  
And now that the rage has consumed me  
Adrenaline lettin' in purely  
Each and every self is with fury  
Revenge is all that consumes me  
At the end of the day I don't know what else to say  
So if the shoe fits, wear it and stay the fuck away  
This is predator speaking directly to the prey  
May we never cross paths in the same place  
Stir with lambs so we're facing the same space  
Mind state, mine grain, bones will break  
Strange brain, blood drain, screams of pain

Placing great seal fate, no trace
