

# Torches

## Daughtry

All the hate and lies around us  
Like an ember in the brush  
And can you picture a world without it?  
And turn it all to ash and dust We keep waiting on a day that never comes and never comes  
Too late is not a thing and we just gotta be stronger  
Oh, gotta be stronger Love is like a torch that's burning bright  
Carry it on, carry it on and you'll see  
Fire will shine a light on the darkest side  
Carry it on, carry it on  
Cause we can never right all the wrongs  
So leave the past well enough alone  
And say  
Take a look at what we started  
Oh, spreading kindness all around  
Don't you know it's so contagious? Yeah  
Take a hit and pass it down We keep waiting on a day that never comes and never comes  
Too late is not a thing and we just gotta be strong Love is like a torch that's burning bright  
Carry it on, carry it on and you'll see  
Fire will shine a light on the darkest side  
Carry it on, carry it on  
Cause we can never right all the wrongs  
So leave the past well enough alone  
Just say Just say  
It's gonna be alright  
Yeah  
It's gonna be alright  
Yeah  
Love is like a torch that's burning bright  
Carry it on, carry it on and you'll see  
Fire will shine a light on the darkest side  
Carry it on, carry it on and say It's gonna be alright  
Yeah  
It's gonna be alright  
Yeah  
I said it's gonna be alright  
Yeah  
It's gonna be alright  
Yeah
