

Wars

The Strumbellas

I climbed a mountain and never came back
I will not quit, and I'll always fight back.
From this moment, for all my life
What could I say, I was born to be this way
and what could I say, I'm just living for today
I'm from a small town of hard working folks
We're all born rich and we all die broke
And from this moment, forever I can hope
What could I say, we were born to be this way
and what could I say, we're just living for today
And we all know that the sun will shine
I must go chase this dream of mine
And I know I can do you proud
When I'm high above those clouds at all
I don't sing well but I got a lot of heart
This worlds a pirate and I'm swimming with the sharks
And in the sunlight, I'm shaking like it's dark
What could I say, I was born to be this way
and what could I say, I'm just living for today
We all know that the sun will shine
I must go chase this dream of mine
And I know I can do you proud
When I'm high above those clouds
We all know that the sun will shine
I must go chase this dream of mine
And I know I can do you proud
When I'm high above those clouds
And I can't sleep but I'm fine
There's a soldier, soldier in my mind
And I can't sleep but I'm fine
There's a soldier, soldier in my mind
There's a soldier, soldier in my mind
There's a soldier, soldier in my mind
There's a soldier, soldier in my mind
There's a soldier, soldier in my mind
We all know that the sun will shine
I must go chase this dream of mine
And I know I can do you proud
When I'm high above those clouds
We all know that the sun will shine
I must go chase this dream of mine
And I know I can do you proud

When I'm high above those clouds
