

2000 Miles

Justin Tyler

Giving my heart to a girl down the street
Would be easier than falling for you
Its hard and I hate that you're far from me
But nobody makes me feel like you do?
They see you every day and just walk by your place
The wind and the rain get a lot closer to you
Than I ever have and I'm stuck on the fact that
I fell for a girl
That lives?
Two thousand miles away
Two time zones from me
In a little town
And all of me wants to come around
But I don't know if I can wait
And spend another night awake
Cuz when I dream of your face it reminds me
I'm two thousand miles away
Are you giving your heart to a guy down the road
Cuz you don't know that I've fallen for you
You've been looking for something
That's what I've been told
And I just hope what they're saying is true?
People see you every day
Can't help staring at your face
The wind and the rain have been a lot closer to you
Than I ever have
I'm still stuck on the fact that
I fell for a girl
That lives
Two thousand miles away
Two time zones from me
In a little town
And all of me wants to come around
But I don't know if I can wait
And spend another night awake
Cuz when I dream of your face it reminds me
I'm two thousand miles away ?
If this means everything
I'd do nothing without you
Cuz theres something about you
Am I out of my mind
Cuz you're?Two thousand miles away

Two time zones from me
In your little town
And all of me wants to come on down
But I don't know if I can wait
And spend another night awake
Cuz when I dream of your face it reminds me
I'm two thousand miles away
Why am I two thousand miles away
I hate that I'm two thousand miles away
Yeah I'm two thousand miles away
From you
