

Over My Skin

Tiffany Young

I got this vision in my mind
You got me sinning with desire
You got my heart on double time
And I'm not putting out my fire
Call me anytime that you want
Send for me you know I'll come over
Hit me when you're ready to go
Love me cause I like and I want ya
Ooh put put put it on me
This woman woman woman
Wants you bad
(I want you over my skin)
'Cause I like it when you touch me
(I don't know where to begin)
Do nasty things and you don't judge me
(Say it again and again)
You got that something that undoes me
(I want you over, over, over and over)
There's nothing wrong with being bad
You know that's what you like about me
Just run your fingers down my back
Go head and feel up on my body
Because I'm owning what's mine
Confident I know I look good babe
Hope that you can handle my shine
Love me in the way that you should babe
Ooh put put put it on me
This woman woman woman
Wants you bad
(I want you over my skin)
'Cause I like it when you touch me
(I don't know where to begin)
Do nasty things and you don't judge me
(Say it again and again)
You got that something that undoes me
(I want you over, over, over and over)
