Dangerous (feat. Joywave)

Big Data

How could you know, how could you know?

That those were my eyes

Peepin through the floor, it's like they know It's like they know I'm looking from the outside and creeping to the door, it's like they know

And now they coming, yeah, now they coming

Out from the shadowsTo take me to the club because they know

That I shut this down, cause they been watching all my windows

They gathered up the wall and listening

You understand, they got a plan for us

I bet you didn't know that I was dangerous

It must be fate, I found a place for us

I bet you didn't know someone could love you this much

How could they know, how could they know

What I been thinking?

But they're right inside my head because they know

Because they know, what I been hidin'

They're right under my bed, they're in controlHere they come, yeah here they come

Out of the shadows

To take me to the club because they know

That I shut this down, cause they been watching all my windows

They gathered up the wall and listening

And I've gotta get out of here

Sink down, into the darkKeep on runningAnd I've gotta get out of here, (keep on running)

Sink down, into the dark

You understand, they got a plan for us

I bet you didn't know that I was dangerous

It must be fate, I found a place for us

I bet you didn't know someone could love you this muchNobody's listening when we're alone

Nobody's listening, there's nobody listening,

No one can hear us when we're alone,

No one can hear us, no, no one can hear usAnd I've gotta get out of here

Sink down, into the dark

Keep on running

And I've gotta get out of here

Keep on running

Sink down, into the darkYou understand, they got a plan for us

I bet you didn't know that I was dangerous

It must be fate, I found a place for us

I bet you didn't know someone could love you this much
