

# Locust

## A-Ha

Don't be afraid  
It's a harmless moon  
All we can do  
Is to assume Our lives must change  
A change is due  
I hear you say  
What are we going to do I don't know, make it  
I don't know, shake it  
I don't know, break it down  
What are you want to do  
I don't know, make it  
I don't know, shake it  
I don't know, break it down  
Oh, weeping night  
Oh, grieving sky  
Oh, rabbit wind  
You just flew by Grant me this  
Some small reward  
Don't announce  
The time of the final call I don't know, make it  
I don't know, shake it  
I don't know, break it down  
What are you want to do  
I don't know, make it  
I don't know, shake it  
I don't know, break it down  
My dream was this  
Across the sky  
A slate-grey cloud  
That filled the eye  
A slate-grey cloud  
Comes through the dust  
Locust I don't know, make it  
I don't know, shake it  
I don't know, break it down  
What are you want to do  
I don't know, make it  
I don't know, shake it  
I don't know, break it down Don't be afraid  
It's a harmless moon  
Don't be afraid

It's a harmless moon
