

Darling

Stories

Darling can you see something inside
Can't be denied it's the way that you feel
If you want it, you gotta try
Taking the best of the lesson you know When the night has turned to dawn I will be gone
Where's the reason and the strength to carry on Come back, I can see you far behind
Taking a chance and forgetting the reason
That I need you on my mind
Making the best of the season till now
Is there nothing in the world that takes the sound
For the more we can conceive the more we found La la la Darling can you feel it? I need your
love
I need the way that you make me feel
Darling if you want it, you can be sure
Taking the best of the lesson you know There so many in the stars watching the sky
And you know somehow that most of them will die
Darling can you see something inside
Can't be denied it's the way that you feel
If you want it, you gotta try
Taking the best of the lesson you know When the night has turned to dawn I will be gone
Where's the reason and the strength to carry on
