

# Tight

Stacie Orrico

I dreamed, I was headed down to Puerto Rico  
Now I'm feeling like I really gotta go  
'Cause I really wanna get away  
And spend some time with you To get away 'cause my life is getting kinda crazy  
And the only way to make it, is to pray  
That's why I'm really gonna get away  
And spend some time with you Well, maybe  
(Cause I)  
I never wanna get down, never wanna let you down  
(I'm thinking, once I)  
Maybe once I get away, maybe put my thoughts down  
(You save me)  
Save me  
(And I thank you)  
Always  
(Now I live my life)  
Just for you  
(So I'm saying that I'm praying everyday)  
Everyday  
(And I know You're gonna always stay) Only you can keep us tight, so I pray with all my might  
So I'm saying that I'm praying everyday  
And I know you're gonna always stay  
Only you can keep us tight, so I pray with all my might At times, when I'm rolling with my crew  
and on the run  
And we're kicking it all day and having fun  
And we know that we should really go  
And spend some time with you  
My mind, it will stay and meditate on You  
So when I'm down and when I'm feeling kinda blue  
There's a word in my heart  
That I really wanna say to you Well, maybe  
(Cause I)  
I never wanna get down, never wanna let you down  
(I'm thinking, once I)  
Maybe once I get away, maybe put my thoughts down  
(You save me) Save me  
(And I thank you)  
Always  
(Now I live my life)  
Just for you  
(So I'm saying that I'm praying everyday)  
Everyday

(And I know You're gonna always stay)Only you can keep us tight, so I pray with all my might  
So I'm saying that I'm praying everyday  
And I know you're gonna always stay  
Only you can keep us tight, so I pray with all my mightSo I saying that I'm praying everyday  
And I know you're gonna always stay  
Only you can keep us tight  
So I pray with all my mightSo I saying that I'm praying everyday  
And I know you're gonna always stay  
Only you can keep us tight  
So I pray with all my mightWe came here so we can rock the house  
Blow it up and turn it out  
Make you dance, make you dance  
Party up and we be putting it downBaby, baby we can rock the house  
Turn it up and blow it out  
Make you dance, make you dance  
Stacie Joy Orrico came to rock the house
