

# Break This Habit (feat. Kiko Bun)

Oliver Heldens

I swear it every time  
I'll break this habit  
But every time I try  
I miss that magic  
Don't think you understand  
I'm just tryna be a better man, I am  
I swear it every time  
But I can't break this habit Oh, all the passion, how it grows  
Can't break this habit  
Oh, through my body, through my soul  
I miss that magic  
Oh, something I've never felt before  
Can't break this habit  
Oh, through my body, through my soul  
I miss that magic  
I can't break this habit, no no  
I can't break this habit, no no It's playing on my mind  
I can't break this habit  
But every time I try  
I miss that magic  
Don't think you understand  
I'm just tryna be a better man, I am  
I swear it every time  
But I can't break this habit Oh, all the passion, how it grows  
Can't break this habit  
Oh, through my body, through my soul  
I miss that magic  
Oh, something I've never felt before  
Can't break this habit  
Oh, through my body, through my soul  
I miss that magic  
I can't break this habit, no no  
Can't break this habit  
I can't break this habit, no no  
I miss that magic  
I can't break this habit, no no  
Can't break this habit  
I can't break this habit, no no  
I miss that magic
