

The Ones With the Light (Acoustic)

[Joshua Radin](#)

The bus is here until three,
So we got an hour to see
The ones tonight,
The ones with the light,
That keep shining. She makes her mark; it's clear,
Checks herself, feeds the fear
Of the one tonight, the one with the light
That keeps shining. Johnny puts the whiskey on the table,
Calling out to everyone who's able. And we will never change,
The way we are here,
I like that we are kinda strange,
So won't you stay near?
The taxi's is filled with five,
He thanks the world he's alive,
Alive tonight, the beauty is honestly blinding. So take a look around,
Almost lost, we've finally found
The ones tonight, the ones with the light,
That keep shining. Johnny puts the whiskey on the table,
Calling out to anyone who's able. And we will never change,
The way we are here,
I like that we are kinda strange,
So won't you stay near? Johnny puts the whiskey on the table,
Calling out to everyone who's able.
We will never change,
The way we are here,
I like that we are kinda strange,
So won't you stay near?
