

# Here With Me (feat. Kadiri James)

## Mahalo

I felt you in my bones Didn't know if it was real,  
but now I'm sure Hesitation left me cold Took me underneath and would  
not let me go Now my feet don't touch the ground And we're moving at  
the speed of sound You take me to another  
place Tell me doesn't love feel good in outer space?  
And I don't know where I'm gonna be tomorrow But I'll figure it out  
later, or not at all Yesterday was another day of sorrow Waiting by  
the phone for you to call I just want you here with me I just wanna  
take you up I just wanna you here with me I  
just wanna take you up I just want you here with me  
Counting stars alone Was I afraid to break your heart or just my own?  
I built these walls up high But now  
I made a door for you to come inside  
Now my feet don't touch the ground And we're moving at the speed of  
sound You take me to another place Tell  
me doesn't love feel good in outer space?  
And I don't know where I'm gonna be tomorrow But I'll figure it out  
later, or not at all Yesterday was another day of sorrow Waiting by  
the phone for you to call I just want you here with me I just wanna  
take you up I just wanna you here with me I  
just wanna take you up I just want you here with me
