

# Tell Me in the Morning

## Cold War Kids

    speak about Greenly  
    now that she's gone  
take my time when I go to bed  
    and I sleep, Lord  
    I'm getting over  
    rolling over  
    I said can you just wait  
to tell me in the morning?slow it down  
    slow it down  
    lay it low  
    save it for the morning  
I know that you would like  
    like to change me  
    make me softer  
tune your voice like a baby  
    I'm using caution  
    bet you wanted  
    I wish you could wait  
to tell me in the morningslow it down  
    slow it down  
    lay it low  
    save it for the morning  
    I shouted questions  
    like a fierce fire  
you tried to take me by the arm  
    into the light  
    I'm almost over  
    rolling over  
    I said could you just wait  
to tell me in the morning?slow it down  
    slow it down  
    lay it low  
save it for the morningand i'll tell you one more thing  
    I confess to self deception  
    pull the lock and pry it open  
    they're pretending to be stolen  
I am my own thief in the nightstruck up for mnay years  
    just to get here  
    between the humility  
    and be my own teacher  
    I guess it backfired  
    'cause my motive

was just to take and  
never kept that way I guess slow it down  
slow it down  
lay it low  
save it for the morning I shouted questions  
like a fierce fire  
you tried to take me into your arms and lead me to the light  
I'm almost over  
rolling over  
I said could you just wait  
to tell me in the morning? slow it down  
slow it down  
lay it low  
save it for the morning and I'll tell you one more thing  
I confess to self deception  
pull the lock and pry it open  
they're pretending to be stolen  
and I am my own thief in the night
