

Keep Cool (feat. Shaggy & Wynter Gordon)

Major Lazer

Late night, wake up
I'm sick, I'm stuck
You're here, so near
Your dream my fear
Your love, my loss
Your dime my cost
My fate, your hands
My life, your brand
Living my life in spite of you
This is the best that I can do
Nothing left for me to prove
I give it all to you
Nothing's what we made it
And we're living like we hate it
I have given all I can
But I can't anymore
Freedom, I can taste it
And the truth, I need to face it
I've always been dedicated
But I can't anymore
Girl you know our love is kinda crazy
And no matter what you're still my lady
Oh
I know you're fiending up here weekly lately
Ah boy you'll find a stretch, you'll never leave me
Oh
When you woke me up and you give me the sweetest wind up
Take someone to loving, if you be young to time uh
Yea, I figured why I was so blind now
Even though your hurt was under surface and me ignored your signs girl
Limbered and teared up, can't leave me like this
Just give me a chance for me to right this
Girl I know you live my love despite this
Cannot let you go, I got to fight for this
Nothing's what we made it
And we're living like we hate it
I have given all I can
But I can't anymore
Freedom, I can taste it
And the truth, I need to face it
I've always been dedicated
But I can't anymore
It's not right 'cause you're saying this
I wasn't born to serve you
I was born to love
Your house, your rules
Keep calm, keep cool
Tip toe, steer clear

Your mask, I wear
Your wants, my needs
Loaded, good deeds
Your frown, my smile
You're up, I'm down Living my life in spite of you
This is the best that I can do
Nothing left for me to prove
I give it all to you Nothing's what we made it
And we're living like we hate it
I have given all I can
But I can't anymore
Freedom, I can taste it
And the truth, I need to face it
I've always been dedicated
But I can't anymore Anymore Baby, and you get the reason
Baby, and you get the reason
Baby, and you get the reason
Never let it sit so long mandita
