

These Girls (Sagan Remix)

Why Don't We

I've been all through the country
From L.A. to Kentucky
Met a good girl in Houston and she knows
That there are bad girls in Paris
No, they wanna get married
And some beautiful ones in Tokyo
Some go to college, some go to model
Some diggin' for that gold
Some tryna solo, some gonna stay at home
Ooh, I want 'em all (These girls)
The ones that you bring home to mom (These girls)
And the ones who love all of the drama (These girls)
I swear there's way too many, tryna fall for one
But I can't help it, I just wanna love all (These girls)
The independent ones with money (These girls)
The crazy ones that love to party (These girls)
I swear there's way too many, tryna fall for one
But I can't help it, I just wanna love all
Hollywood girl, tryna be like Rihanna
And I can't choose one I just gotta be honest
Oh, I don't know how to describe
Too many girls on my mind
Too many girls on [?]
Ooh, I want 'em all (These girls)
The ones that you bring home to mom (These girls)
And the ones who love all of the drama (These girls)
I swear there's way too many, tryna fall for one
But I can't help it, I just wanna love all (These girls)
The independent ones with money (These girls)
The crazy ones that love to party (These girls)
I swear there's way too many, tryna fall for one
But I can't help it, I just wanna love all
Hollywood girl, tryna be like Rihanna
And I can't choose one I just gotta be honest
Oh, I don't know how to describe
Too many girls on my mind
Too many girls on [?]
Ooh, I want 'em all
The ones that you bring home to mom
And the ones who love all of the drama
I swear there's way too many, tryna fall for one
But I can't help it, I just wanna love

Ooh, (These girls)
The ones that you bring home to mom (These girls)
And the ones who love all of the drama (These girls)
I swear there's way too many, tryna fall for one
But I can't help it, I just wanna love all (These girls)
The independent ones with money (These girls)
The crazy ones that love to party (These girls)
I swear there's way too many, tryna fall for one
But I can't help it, I just wanna love all
