

# For Fresia (feat. Conor Maynard)

## ANTH

(Intro : Conor Maynard)  
You never did wrong  
Never hurt nobody  
Could be ? out, take you in a hurry  
No, no i won't tell nobody  
No you can't buy time with money  
But i wouldn't care how much i lose  
Just with one more day with you(Anth Melo)  
You, you, 6:42  
Why the hell my sister calling me at 6:42?  
She barely calls  
Maybe she just got me confused  
But something told me I should pick it up to see if she's cool  
"Hello?"  
What's wrong? What happened?  
Stop crying, what you saying?  
I can't understand it  
So much pain in her voice  
I started to panic  
What the hell is going on i can only imagine  
(Anth Melo)  
You said  
You were dropping off the kids in your car  
Only a couple blocks away  
It wasn't even that far  
But then a truck came out of nowhere driving right through the stop  
I don't need to hear the rest  
Just need to know where you are  
You said that you n all the kids were doing fine  
Couple cuts and bruises  
You n the kids'll be alright  
But our sister Fresia needs you there right by her side  
They flew her to the hospital  
They didn't tell me why  
So I picked up my father I'm doing 90 on a 50  
When a cop pulled me over but chose to put away the ticket  
When I told him what happened n said I gotta get there quickly  
Then he followed us there when he didn't have to but he did it  
And I can't even lie  
I can't even lie  
Haven't even got inside when I start to cry  
Walk up to the front desk

Ask if you're alright  
I can tell something's wrong, see it in her eyes  
My dad beside me and she took us down the hall  
I can't wait to see you and to tell you bout it all  
You'll prolly think I'm stupid  
Ask me what I'm crying for  
Felt like it was hours before we finally reached the door  
The room that we were led inside you weren't even there  
Just an empty room filled with a couple of chairs  
My heart is fuckin beating  
All this pain in the air  
My stomach fuckin turning  
All I'm feeling is fear  
(Anth Melo)  
The doctor walked in  
Right behind were three nurses  
Said they did all that they could but nothing that they did was working  
'And I hate to have to tell you and I know you don't deserve it'  
'But your sister didn't make it' and my heart just hit the surface like...  
(Breathing & and Heart beating)(Anth Melo)  
I turn round to my father  
Try to break him the news  
But I ain't even have to 'cause he already knew  
He don't really speak much English but what's that gotta do  
When he was seeing  
Feeling every broken heart in the room  
Shit... How the fuck am I gon' tell my brother?  
Fuck that, how the fuck am I gon' tell my mother?  
How the fuck my nephew gon' grow up without a mother?  
He's only 2 with a father who wished he wore a rubber  
Its crazy how you never know, crazy how it go  
Why the ones you love the most are the first to go?  
You were always taking care of me when I was broke  
So now I want you to know...(Anth Melo)  
I look at Jeremiah and I see you every time  
And I know he ain't my son but I'll treat him like he's mine  
You ain't ever gotta worry Fres  
I swear that he'll be fine  
Give him everything I have, every dollar, every dime  
'Till you lose somebody you won't know how it feels  
But I pray you never do because I swear that it kills  
Death leaves a pain that nobody can heal  
But the love leaves a memory nobody can steal
