

# Gravity Lies

## Red

"Gravity Lies" Take it away, I never thought, I'd let it grow this, cancer inside, the villain plays,  
the victim, so well.

Make me believe, I drink the lies, this suicide just, put me to sleep, fall over me. Lies, lies, lies, I  
taste the, lies, lies, lies! Fight, while I'm alive, I see you now, no, less than light.

Break, you're falling away (falling away), gravity lies, I feel it die, gravity dies! Buried alive, an  
innocence, cannot withstand this, language of lies, to poison all the words, you swallow.

Wait for the scream, you realize, it's all a lie and still you betray, I'll throw you away. Lies, lies,  
lies, I taste the, lies, lies, lies! Fight, while I'm alive, I see you now, no, less than light.

Break, you're falling away (falling away), gravity lies, I feel it die, gravity dies! Fight, while I'm  
alive, I see you now, no, less than light.

Break, you're falling away (falling away), gravity lies, I feel it die (ah, ah, ah, ah, ah).

Fight, while I'm alive, I see you now, no, less than light.

Break, you're falling away (falling away), gravity lies, I feel it die, gravity dies!

I feel you now (ah, ah, ah, ah, ah), gravity lies, I feel it die, your gravity dies!
