

Off With Their Heads

Soufly

Off with their heads
All across the land
Off with their heads
Ritual will prepare
Off with their heads
Crossbones & skulls dead
Off with their heads
Kill all them inbreds Off with their heads
Beware of what's ahead
Off with their heads
They betray and now they're dead
Off with their heads
Just like the old ones had
Off with their heads
Hate without end
Off with their heads
In this no man's land
Off with their heads
Their fate is now in hand
Off with their heads
To kill is their intent
Off with their heads
In blood this will end... Off with their heads
Sacrifice 'til death
Off with their heads
Now they learn to obey
Off with their heads
In between life and death
Off with their heads
You're born with a price on your head...
Skulls, bones, Rome, burns
Doom, falls, war, comes
Die, lie, sick, soul
Scream, sin, in, between...
