

# I'll Save You All My Kisses

## Dead or Alive

You might hear I'd trade my love for beauty  
Don't believe that stuff  
It's a misunderstanding Whatever I've got  
It doesn't come cheaply  
Not many have got  
What it might take to keep me (Chorus)  
I'll save you all my kisses  
Save you all my kisses I'm all alone  
With nobody to amuse me  
If I told you I'd be true  
I know you'd see right through me  
Because I'm on the road  
They give your permission  
While others just fool around  
With my ignition  
(Chorus)  
I don't mean to worry you  
But I'm full of heart  
And I've got an empty head  
I don't mean to hurry you  
But I just can't live here with an empty bed I would be so satisfied  
If you were right here  
Standing by my side  
There's not much I wouldn't do  
If I could save all of my kisses just for you If people say I'm bad to promise you  
Ignore them  
My kisses are exclusive  
No one can afford them  
All the thrills in my heart  
Have found them with you  
Nobody else can do  
The things that you do
