

Let's Talk About Feelings

Joywave

I, I am drowning in love with you
I, I hope, hope that it's good for you I, I am learning to live again
I, I'm done with the fast-paced, flower crowned women I, I am falling in love with you
I, I hope that it's good for you I, I've been, I've been in every state
But content is foreign soil (content is foreign soil)
It's sand I'd love to cultivate
I'm just afraid that you'll change me
Won't run away but I'll have to take it slow
Don't want to fall silent for long
Won't run away, I spook out easy though I'm just afraid that you'll change me
Won't run away but I'll have to take it slow
Don't want to fall silent for long
Won't run away, I spook out easy though I'm just afraid that you'll change me
Won't run away but I'll have to take it slow
Don't want to fall silent for long
Won't run away, I spook out easy though
I'm just afraid that you'll change me
Won't run away but I'll have to take it slow
Don't want to fall silent for long
Won't run away, I spook out easy though
