

ILLusions

Kid Cudi

These illusions in my head, ohh
(I never wanna leave)
Hallucinating, flying through air, ohh, so long
To the demons in my head, ohh
(No more misery)
Hallucinating, flying through air, ohh, so long
Free, free And I got it, and I got it, and I got it
And I got it, and I got it, and I got it, yeah
And I got it, and I got it, and I got it
And I got it, and I got it, and I got it, yeah
Think I was about thirteen
(let's go)
The darkness had me diseased
A young warrior on my own (own)
I choose to take control (take control)
They say the light keeps the evil at bay
As I coast right through my mind (home glide)
In this beauty far as eyes can see
Lotta shit making sense lately (lately) These illusions in my head, ohh
(I never wanna leave)
Hallucinating, flying through air, ohh, so long
To the demons in my head, ohh
(No more misery)
Hallucinating, flying through air, ohh, all so long
Free, free More more more more more
Around the age of 23
Is when I finally heard the frequency
And I've been deep in the line of grace
Living an electric dream (electric dream)
Tripping in the warmth of the love all around me
I'm tripping in the warmth of the sun
These illusions in my head, ohh
(I never wanna leave)
Hallucinating, flying through air, ohh, so long
To the demons in my head, ohh
(No more misery)
Hallucinating, flying through air, ohh, so long
Free, free And I got it, and I got it, and I got it
And I got it, and I got it, and I got it, yeah
And I got it, and I got it, and I got it
And I got it, and I got it, and I got it, yeah
Fly, fly, fly, fly, fly, fly, fly, (up, up, up, up, up)

Fly, fly, fly, fly, fly, fly, fly, (up, up, up, up, up)

Fly

These illusions in my head, ohh

(I never wanna leave)

Hallucinating, flying through air, ohh, so long

To the demons in my head, ohh

(No more misery)

Hallucinating, flying through air, ohh, so long

Free, free
