

# La La

## The Cab

Come feel my heart  
It's beating like a drum & I confess  
When you're around  
It's like an army's marching through my chest And there's nothing I can do  
I just gravitate towards you  
You're pulling on me like the moon  
I just wanna get you sideways  
I'll say anything I can to get me more than just a dance  
Tell me where to put my hands  
You know that you could be my favorite one-night stand  
You get me higher What would you do if I told you that I la, la, la, la, loved you?  
Do if I said it tonight?  
What would you do if I told you that I la, la, la, la, loved you?  
'Cause you know I la, la, la, lie  
You're like a song  
A beautiful symphony to my eyes  
So take me on  
I wanna sing along all through the night  
I'm not like the other boys 'cause with you I've got no choice  
You make me wanna lose my voice  
I just wanna get you sideways  
No, I'm not the type to lie but I might just start tonight  
Let me turn off all these lights  
You know that you could be my favorite lullaby  
You get me higher What would you do if I told you that I la, la, la, la, loved you?  
Do if I said it tonight?  
What would you do if I told you that I la, la, la, la, loved you?  
'Cause you know I la, la, la, lie  
Like a symphony  
like a symphony tonight  
Like a symphony  
like a symphony tonight Sounds like a symphony, like a symphony, like a symphony tonight  
Like a symphony  
like a symphony tonight What would you do if I told you that I la, la, la, la, loved you?  
Do if I said it tonight?  
What would you do if I told you that I la, la, la, la, loved you?  
'Cause you know I la, la, la, la, la... What would you do if I told you that I la, la, la, loved you?  
Do if I said it tonight?  
What would you do if I told you that I la, la, la, la, loved you?  
'Cause you know I la, la, la, lie
