

# Cage the Beast

## Adelitas Way

I see it in your eyes  
Your feeling paranoid  
You know just what I've done  
You know what I've become  
I feel it deep inside  
With all the pain & lies  
I know just what I want  
I am an animal I think it's time I let you go, Why did you send me off You can't cage the beast,  
There's no break in me  
You can't cage the beast inside of me  
I feel the rage, And all the the pain  
You can't cage the beast inside of me  
Inside of me  
I feel it in your bite  
You are a parasite  
Who knows just what I've done  
I think your time has come You tried to turn the tide  
I think you've lost your mind  
Afraid of what I want  
This sick animal I've become I think it's time I let you go, Why did you send me off You can't  
cage the beast, There's no break in me  
You can't cage the beast inside of me  
I feel the rage, and all the pain  
You can't cage the beast inside of me  
Inside of me  
You can't cage the beast, There's no break in me  
You can't cage the beast inside of me  
I feel the rage, and all the pain  
You can't cage the beast inside of me  
Inside of me
