

Get With You and Get High

A Giant Dog

I wake up in bed
and put on your shirt.
Try to feel my head
gotta go to work.All I wanna do
is get with you and get high.Last night was the best
thing I ever did.
Almost made me feel
like a little kid.
All I wanna do
Is get with you and get high.
Get with you and get high.
Get with you and get high.Was I good to you?
I can't remember it.
Costumes and the pills
helped a little bit.All I wanna do
is get with you and get high.Got a pretty map
of your father's house
tattooed on my back
trace it with your mouth.
All I wanna do
is get with you and get high.
Get with you and get high.
Get with you and get high.
Get with you and get high.
Get with you and get high.
