

# Try

## John Newman

Working so hard, I was alone  
Too much on my cards, too much going on  
Lately I've found I'm headed astray  
And none of your feels care in to play  
I'll make it stronger, stronger, stronger  
Cause now I can see the fakes using me  
Make you stronger, stronger  
Cause I know its you saving me I will try, try, try not to bring it all hold  
I will fight, fight, fight for what we had before  
You don't even want this  
You don't even mean this  
You don't have to cover up the tears at all  
Cause I will try, try, try not to bring it all whole  
10 days apart when 3 seems insane  
You can't hear my voice you still hear my name  
A call from a afar a message to send  
I pray you don't leave and nothing has changed  
I'll make you stronger, stronger  
Cause now I can see the things that use me  
I'll make us stronger, stronger,  
I know its you saving me I will try, try, try not to bring it all hold  
I will fight, fight, fight for what we had before  
You don't even want this  
You don't even mean this  
You don't have to cover up the tears at all  
Cause I will try, try, try not to bring it all whole  
Try na na na...I gotta try now  
I've been breaking this whole for far too long  
So I, I.  
I will try, try, try not to bring it all hold  
I will fight, fight, fight for what we had before  
You don't even want this  
You don't even mean this  
You don't have to cover up the tears at all  
Cause I will try, try, try not to bring it all whole. I will try, try, try, try, try not to bring it all hold  
Fight, fight, fight, fight no no no  
Cause I will try, try, try not to bring it all hold  
Try na na na...
