

In April Sometime

Weston

It's been a long time since I've seen your face
I hope you're okay, cuz I'm not okay
It's been a long day
I know people change
I hope you're okay, cuz I'm not okay
I am not okay, I am not okay Can we go down this road again?
Where we met, on 55st East
hold your hand so tight
our future seemed so bright
when you look at me, and I look at you
I'll never forget that, never forget that night
Things are catching up on me
History seems haunting
And I know things will never be the same
you can get over me but I can't get over you
It's not that easy, you see
I didn't have someone waiting for me
I am not okay, I am not okay Can we go down this road again?
Where we met, on 55st East
hold your hand so tight
our future seemed so bright
when you look at me, and I look at you
I'll never forget that, never forget that night Never wanted to say goodbye
Can we go down this road again?
Where we met, on 55st East
hold your hand so tight
our future seemed so bright
when you look at me, and I look at you
I'll never forget that, never forget that night
