

# Chemical Heart

## Grinspoon

When,  
look for a ride and you need to get high my friends.  
spend all your time just a walkin around instead,  
like black rose its somebody to hold for them,  
for them.lets,  
go outside have nothin to hide for free.  
can't seem to see the forrest from the trees,  
grass is always greener but how do you know we'll see,  
we'll see.can't get started,  
chemical heart.  
everytime i get started,  
you pull me apart.  
can't get started,  
chemical heart.  
everytime i get started,  
you pull me apart.  
forgotton,  
maybe things are right on the other side undone.  
better off wishin for the stars to kill the sun,  
like packed rows that nobody can hold no one, no one cant get started,  
chemical heart.  
everytime i get started,  
you pull me apart.  
can't get started,  
chemical heart.  
everytime i get started,  
you pull me apart.yeah!ooooooooooooooooooooooooooooooooooh

When,  
look for a ride and you need to get high my friends.  
spend all your time just a walkin around instead,  
like black rose its somebody to hold for them,  
for them.cant get started,  
chemical heart.  
everytime i get started,  
you pull me apart.  
can't get started,  
chemical heart.  
everytime i get started,  
you pull me apart.  
yeah!  
cant get started,  
chemical heart.

everytime i get started,  
you pull me apart.  
can't get started,  
chemical heart.  
everytime i get started,  
you pull me apart.
