

If I Didn't Have You

Thompson Square

Sometimes it feels like, I'm gonna break
Sometimes this world, gives more than I can take
Sometimes, sunshine gets lost in the rain
And it keeps pouring down
It just keeps coming down.
This life would kill me If I didn't have you
I couldn't live without you baby
I wouldn't want to
If you didn't love me so much
I'd never make it through
'Cuz this life would kill me
This life would kill me if I didn't have you.
You are my heart, every breath I breathe
I'm safe in your arms, you rescue me.
When I'm weak, you're strong
If you were gone I don't know where I'd be
You were made for me
(You were made for me)
This life would kill me If I didn't have you I couldn't live without you baby
I wouldn't want to
If you didn't love me so much
I'd never make it through
'Cuz this life would kill me
This life would kill me if I didn't have you
If you didn't love me so much
(If you didn't love me so much)
This Life would kill me If I didn't have you
(This life would kill me)
Couldn't live without you baby
I wouldn't want to
If you didn't love me so much
I'd never make it through
'Cuz This life would kill me
This Life would kill me if I didn't have you
