Save It for a Rainy Day

Stephen Bishop

Well she's kinda pretty, drives a big car too
And when I hold her in my arms, I never know what to do
She's got everything she needs, what does she need me for
Just a crazy fool comin' back for moreAnd I know she's no good
Can't blame her but I know I should

Everybody says a watch out boy

She'll break your heart like it was a toyYou better save it for a rainy day

You better save it for a rainy day

Well I'd leave in a minute if I only could

But when she touches me, it makes me feel so good

My heart's in her hand this is sure a mess

There's no way I say no, when she says yes, yes, yes Take me, shake me

And tell me this ain't a dream

Everybody says a watch out boy

She'll break your heart like it was a toyYou better save it for a rainy day You better save it for a rainy daySave it for a rainy day

You better save it for a rainy dayYou better save it, save it for a rainy day

You better save it, save it for a rainy day

You better save it, save it for a rainy day

You better save it, save it for a rainy day

You better save it, save it for a rainy day

You better save it, save it for a rainy day

You better save it, save it for a rainy day

You better save it, save it
