

Colors Bleed

Pop Evil

Sedate by all means, money machines
Segregate, kings from queens
Institutions, constitutions
Freedom, where's the solution
Nevermind, never will
Anytime, shoot to kill
Built by hate, with nobody to love
Stay the night, your about to get shoved
Step aside, watch the colors bleed
Step aside, watch the colors bleed
The rise of democracy
Step aside, watch the colors bleed
Step aside, watch the colors bleed
The rise of democracy
Fight the system, stop and listen
True colors, how can you miss them
Born with knowledge, raise the fist
Face the enemy, just resist
Surrender, but the brand remains
Lock us up, can't be contained
Built by hate, with nobody to love
Stay the night, your about to get shoved
Step aside, watch the colors bleed
Step aside, watch the colors bleed
The rise of democracy
Step aside, watch the colors bleed
Step aside, watch the colors bleed
Step aside
There's evil in us all
Step aside, watch the colors bleed
Step aside, watch the colors bleed
The rise of democracy
Step aside, watch the colors bleed
Step aside, there's evil in us all
