

Unconscious Power

Iron Butterfly

We all want to climb the hill
The unbelievable is going to happen
It will linger in your mind forever
Let this carry you wherever - wherever. Triggering The Unconscious power. Removing all your
inhibitions
Releasing complete freedom of thought
Sensations of ev'ry sense will prepare
With this you will see ev'ry thing. Triggering The Unconscious power. Triggering The
Unconscious power.
I say to you
nothin' for now.
Oh, now
we know all,
we know all,
we know all,
we know all!
