

It's Gonna Be Alright

Jon Lemmon

Let go, give in now
Breathe in you can be without
Feel the warmth that you're made of
Dont worry just give love
Let go give in now
Breathe in you can be without
Feel the warth that you are made of
Dont worry just give loveWe're coming back
We're coming back
We're coming back
And giving love
And giving love
Giving love
Let go give in now
Breathe in you can be without
Feel the warmth that you are made of
Dont worry just give love
Let go give in now
Breathe in you can be without
Feel the warmth that you're made of
Dont worry just give loveWe're coming back
We're coming back
We're coming back
And giving love
We're coming back
We're coming back
We're coming back
And giving love
And giving love
Hold on this time
Its gonna be alright
It wont take that much
To make the whole thing right
Hold on this time
Its gonna be alright
It wont take that much
To make the whole thing right
To make the whole thing rightWe're coming back
We're coming back
We're coming back
And giving love
And giving love

Giving love Hold on this time
Its gonna be alright
It wont take that much
To make the whole thing right
Hold on this time
Its gonna be alright
It wont take that much
To make the whole thing right
