

# I Would Never Have Guessed

Sade

I know that the damage is already done,  
There's no going back,  
I would have never guessed we'd come to this!  
I know that it hurt to turn you away,  
And I know all that I was wrong.[Chorus:]  
You're raging inside  
And the being denied,  
Waited too long for the feeling to die!  
It's something this broken ever gonna fix?  
If you ask me this question I would ever have guessed.I know that it hurt, to turn you away,  
And I know all that I was wrong!  
[Chorus:]  
You're raging inside  
And the being denied,  
Waited too long for the feeling to die!  
It's something this broken ever gonna fix?  
If you ask me this question I would ever have guessed.
