

Limitless

Bon Jovi

Wake up, everybody wake up
Here we go, it's just another day
Another buzz, another beep
Scrub your face and brush your teeth
Out the door, into the street
I fell out of my sleep
A million different faces, all from different places
Swimming in the sea
Tryna keep your head above water
Tryna keep your head above water
On a night like this
One prayer, one wish
Step out off the edge, it's worth the risk
Life is limitless, limitless
Limitless, limitless
Wake up, everybody wake up
Morning comes, you'll do it all again
You know the song, it's on repeat
Found your shoes, can't find your feet
Grab your wallet and your keys
Better not forget to breath
Sweat until you're soaking
Don't let them see you choking
A teardrop in the sea
Tryna keep your head above water
You're tryna keep your head above water
On a night like this
One prayer, one wish
Step out off the edge, it's worth the risk
Life is limitless, limitless
Limitless, limitless
Life is limitless, limitless
Limitless
Left to figure out, what it's all about
When the sun comes up
And the sun goes down
Is there something more
Than it was before?
There's an open door, what are you waitin' for?
Life is limitless, limitless
Limitless
On a night like this
One prayer, one wish
Step out on the edge, it's worth the risk
On a night like this
One touch, one kiss
Step out on the edge, it's worth the risk
Life is limitless, limitless
Limitless, limitless
Life is limitless, limitless

Limitless, limitless
Limitless, limitless
Limitless, limitless
