

More Than Life Itself

[Kelly Osbourne](#)

You never said that you were perfect
But you always are to me
Loving you is always worth it
'Cause you see so much in me And when I'm down you're there to lift me
You come around when I need a friend And no one loves me like you do
Unconditional and true
You're the shoulder that I've always known
And the hand that says I'm not alone
More than myself
I love you more than life itself Did you know that I get lonely
At the thought of you not being here
Can you see that you're the only
One who never disappears
And when I fear you are the comfort
The one who steers me to the light And no one loves me like you do
Unconditional and true
You're the shoulder that I've always known
And the hand that says I'm not alone
More than myself
I love you more than life itself I love you I love you I love you
And I don't care if it sounds trite
I'll say it over and over
It makes me feel alive
You gave me all my fire
By watching you live by what you believe
So many things you taught me
And even when you caught me
I always knew that you, you could still see
The best in me
The best in me (spoken)
No one loves me like you do
Unconditional and true
You're the shoulder that I've always known
And the hand that says I'm not alone
More than myself
I love you more than life itself (x4)
More than you know (x2)
I love you more than life itself
